DEC Memo: "6/25/2015 - Feng - Duty Desk. Talked to Alex Castro of NYCDEP (347-865-1238, ACastro@DEP.NYC.gov). Alex responded to the complaint. It is a huge residential building. Caller complained about fuel odor that make her sick. The situation has been for 2 months. The super (Flamur 347-408-9953) said they are cleaning the fuel oil tank. During his inspection, there was an excavation out side the building and covered with wooden board. He noticed that fume of fuel oil keep coming out from the excavation. He did not check the inside of the building. Discussed with S. Mahat and he will conduct a site inspection. Spill is assigned to S. Mahat. PBS : 2-323241 6/30/15: Mahat t/c: DEC Mahat talked to the Management about the site and its progress. The site has been prepared for tank abandonment in place. The entire process will last for next two days. Meantime Contractor has confirmed that they will install HEPA Air Purifier on the hallway to remedy the smell. DEC Mahat also contacted the notifier and has confirmed that there is no smell/odor in her living space. It is mostly outside and the lobby. No further investigation is warranted by the Department. The spill case will be closed in DEC Spill Database since there was no spill on the site. "

Remarks: "large hole in front of apartment building fuel oil in hole clean up
